

Data Sheet

F075 Genuine Chemours® Viton® F - 70% Fluorine

Data Sheet Type	Final
Material Reference	F075
Polymer	FKM(>68% Fluorine)
Date Issued	27/07/24

Description

Chemours® Viton® F - 70% Fluorine - Better Chemical Resistance

The Viton® F Family was designed for use with Oxygenated Fuels, modern lubricants and blended aggressive chemical agents. As New Chemicals are developed Chemours is leading New Developments in Viton F to match the sealing challenges they create.

Purposes

Acid Resistance

 Bio-Fuel
Resistance

 Chemical
Resistant

 High Working
Temperature

 Low Working
Temperature

Oil Resistance

Petrol Resistance

Steam Resistant

Important Notes about this Material Data Sheet

This datasheet has been carefully compiled to advise you, our customer, in the best possible way. The information, figures, test values, and data correspond to actual engineering standards and are the result of many years of tests and trials. As individual operating conditions influence the application of each product, the information supplied in this datasheet can only be seen as a rough guideline. In every case it is the sole responsibility of the customer to evaluate his individual requirements, in particular whether the specified properties of our products are sufficient for the intended use. This datasheet is subject to alteration without prior notice. All mentioned values contained herein are guiding values representing long-term experience averages. Please be aware that Test Results for individual Material Batches will only be provided if requested at the time of order and may be subject to additional charges and/or lead times. This Data Sheet supersedes all previous data sheets and any other data previously provided either Verbally, Electronic or Written, with reference to the above Material Grade.
