

Data Sheet 0170-AS-SK660

Data Sheet Type	Final
Material Reference	0170-AS-SK660
Polymer	
Date Issued	31/07/25

Description

Anti-Static emergency response spill kits include a range of products supplied in a high quality, high density, UV stabilised polyethylene container with FOUR wheels for easy movement around site. The contents are ideal for absorbing flammable liquids where there is a risk of static electricity causing a fire or explosion. Each Kit Contains 200 Pads - 50 Socks (7.5 x 125cm) - 10 Pillows - 8 Oil Booms - 30 Disposal Bags & Ties

Specifications	Values	Test Methods
Anti Static	Yes	None
Colour	White	None
For Use With	Oil	None
Maximum Absorbency	750 L	None
Size	97 x 82 x 132cm	None
Water Repellant (Hydrophobic)	Yes	None
Weight	98.4 KG	None

Important Notes about this Material Data Sheet

This datasheet has been carefully compiled to advise you, our customer, in the best possible way. The information, figures, test values, and data correspond to actual engineering standards and are the result of many years of tests and trials. As individual operating conditions influence the application of each product, the information supplied in this datasheet can only be seen as a rough guideline. In every case it is the sole responsibility of the customer to evaluate his individual requirements, in particular whether the specified properties of our products are sufficient for the intended use. This datasheet is subject to alteration without prior notice. All mentioned values contained herein are guiding values representing long-term experience averages. Please be aware that Test Results for individual Material Batches will only be provided if requested at the time of order and may be subject to additional charges and/or lead times. This Data Sheet supersedes all previous data sheets and any other data previously provided either Verbally, Electronic or Written, with reference to the above Material Grade.
