Data Sheet	0399-GRAN-20L Oil Absorbent Clay Granules

Data Sheet Type	Final
Material Reference	0399-GRAN-20L
Polymer	
Date Issued	03/11/26

Description

Absorbent Granules for all industrial situations this product performs especially well on oils and greases. Manufactured from recycled minerals they are non-combustible and non-toxic. With a medium bulk density this product is ideal for outdoor use and has good resistance to traffic spread. Pack size 20L Bag

Specifications	Values	Test Methods
Anti Static	No	None
For Use With	Oils & Greases	None
Maximum Absorbency	17 L	None
Water Repellant (Hydrophobic)	No	None
Weight	16 KG	None

Important Notes about this Material Data Sheet

This datasheet has been carefully compiled to advise you, our customer, in the best possible way. The information, figures, test values, and data correspond to actual engineering standards and are the result of many years of tests and trials. As individual operating conditions influence the application of each product, the information supplied in this datasheet can only be seen as a rough guideline. In every case it is the sole responsibility of the customer to evaluate his individual requirements, in particular whether the specified properties of our products are sufficient for the intended use. This datasheet is subject to alteration without prior notice. All mentioned values contained herein are guiding values representing long-term experience averages. Please be aware that Test Results for individual Material Batches will only be provided if requested at the time of order and may be subject to additional charges and/or lead times. This Data Sheet supersedes all previous data sheets and any other data previously provided either Verbally, Electronic or Written, with reference to the above Material Grade.
