

Data Sheet

T370 TPE Fine Ribbed Matting

Data Sheet Type	Final
Material Reference	T370030
Polymer	TPE
Date Issued	17/09/25

Description

Thermoplastic Elastomer (TPE) Matting is an excellent alternative to Rubber and PVC products with better ozone resistance, low odour compared to most rubber mattings, and is completely recyclable. Ideal for Events, Workshops, Garages and general walkways. Quick and easy to lay and cut to shape.

Available in vivid Blue and Yellow as well as standard Grey. The product can be manufactured to an exact Ral Colour reference subject to minimum production quantities.

Can also be manufactured with Flame Resistance for specific environments.

Specifications	Values	Test Methods
Elongation at Break	200 %	ASTM D412
Highest Recommended Working Temperature	70 °C	None
Lowest Recommended Working Temperature	-30 °C	None
Shore Hardness (Shore A)	70 ° Shore	ASTM D2240
Specific Gravity	1.5 g/cm 3	ASTM D2240
Tear Resistance	30 KN/m	None
Tensile Strength	4 MPA	ASTM D412

Purposes

Abrasive Resistance

Ozone Resistance

Tear Resistant

Water Resistant

Wear Resistant

Weather Resistance

Important Notes about this Material Data Sheet

This datasheet has been carefully compiled to advise you, our customer, in the best possible way. The information, figures, test values, and data correspond to actual engineering standards and are the result of many years of tests and trials. As individual operating conditions influence the application of each product, the information supplied in this datasheet can only be seen as a rough guideline. In every case it is the sole responsibility of the customer to evaluate his individual requirements, in particular whether the specified properties of our products are sufficient for the intended use. This datasheet is subject to alteration without prior notice. All mentioned values contained herein are guiding values representing long-term experience averages. Please be aware that Test Results for individual Material Batches will only be provided if requested at the time of order and may be subject to additional charges and/or lead times. This Data Sheet supersedes all previous data sheets and any other data previously provided either Verbally, Electronic or Written, with reference to the above Material Grade.
