Polymers to Industry

PPWR Compliance Statement

MacLellan Rubber Ltd is committed to meeting applicable packaging and packaging waste requirements in the markets in which it operates.

Based on information currently available to us, including supplier declarations and technical information, MacLellan Rubber Ltd understands that the packaging materials used for our products are intended to comply with the relevant applicable requirements of Regulation (EU) 2025/40 on packaging and packaging waste (PPWR), as those requirements become applicable.

Chemical Substance Compliance

Based on supplier-provided information and our current knowledge, we understand that the packaging materials used by MacLellan rubber Ltd:

- comply with applicable substance restrictions under Regulation (EC) No 1907/2006 (REACH), including applicable restrictions in Annex XVII;
- do not contain any Substances of Very High Concern (SVHCs) included on the ECHA Candidate List above 0.1% w/w in any relevant packaging article or component, unless otherwise notified;
- comply with applicable requirements of Regulation (EU) 2019/1021 on persistent organic pollutants (POPs), including applicable prohibitions and restrictions for substances listed in Annexes I and II; and
- comply, where applicable, with PPWR substance restrictions for packaging, including limits for lead, cadmium, mercury and hexavalent chromium.

This statement is based on information available at the date of publication and may be updated as further supplier information, official guidance, or implementing legislation becomes available.

Signed : *S. Winfield*
